DIT Group Limited

(Stock code: 726. HK)

DIT Group's Decoration Industrial Park included in "The List of Factories with Intelligent Production for 2022 in Henan Province"

(18 July 2022, Hong Kong) **DIT Group Limited** ("DIT Group" or the "Group", SEHK stock code: 726), an innovative high-tech company specializing in businesses in the whole value chain of prefabricated construction ("PC") in the People's Republic of China ("PRC"), is pleased to announce that the intelligent production for production of doors and windows for prefabricated construction at the Group's Decoration Industrial Park in Henan province made it to "The List of Factories with Intelligent Production for 2022 in Henan Province". The list was announced by the Department of Industry and Information Technology of Henan.

DIT Group's Decoration Industrial Park in Henan is a major investment project in Kaifeng Municipal Government's campaign to attract investors. It is also a key part of the Group's "turnkey" project. The selected intelligent production for production of doors and windows for prefabricated construction is fully automated and is dubbed a "lights-out factory".

The production adopts intelligent production line and intelligent control system to raise efficiency in both management and production. The intelligent control system can ensure the consistency of product quality and improve product qualification rate. In addition, the production is equipped with an online system for monitoring energy consumption and an intelligent control system to improve energy utilization and to reduce the number of operators on the work floor to ensure safety. To meet clients' demand for customization, the designers at the intelligent production can input the parameters of production into a system for optimizing the design of the doors and windows and thus automatically generate orders. The digitalized and intelligent production line will operate accordingly.

DIT Group's chief executive officer and executive director Guo Weiqiang said, "We are honoured that the intelligent production line in the Group's Decoration Industrial Park in Henan has been rated as the "Model Intelligent Production in Henan Province". This fully testifies to the Group's achievements in technological innovation and the effectiveness of its intelligent manufacturing solutions for the digitalization of businesses. In the future, we will press ahead with mechanization and intelligentization by blazing a trail in the intelligentization of the entire value chain of prefabricated construction and by furthering the digitalization and intelligentization of its operations. By upgrading the production process through digitalization and intelligentization, the Group will be able to provide customers and society with integrated solutions for smart construction and thus accelerate the transformation of the construction industry into an environment-friendly one."
